"A School You Can Have Faith In!"

St. Mary Pre-School Program

Early Development is fundamental to the growth of your child.

For 20 years, St. Mary Pre-School Program has offered FUN and EXCITING ways to learn. The classroom is child friendly, motivating, and engaging.

Children of all faiths are welcome!

Class Room Schedule

- **Seat work** - writing, coloring, and math skills such as patterning and counting
- **Circle Time** - song/dance, calendar (English and Spanish), letter of the week, story/game, show and tell
- **Bathroom break / Snack** - children have assigned weekly jobs
- **Center Time** - children choose designated areas of play where they develop creativity, problem solving skills, and responsibility
- **Gym/ Seasonal Outside Play** - Motor skills are developed through dance, games, and activities with the use of equipment
- **Closing Activities** - story, goodbyes, and sticker rewards

Check out our classroom!!

Personal & Social Development

Children will develop confidence, self direction, and responsibility. They are encouraged to be independent learners. They will learn how to interact easily with other children and adults and learn to solve conflicts in a positive way. We value the golden rule 'to treat other as you want to be treated" and focus on self-control.

Literacy Introduction

Children will be exposed to a wide variety of hands on literacy activities to increase their listening, learning, and speaking skills during circle time. Activities include stories, music, games, dance, and crafts. Our 4K program offers a structured beginner literacy program which includes word walls, leveled books and sight words that focus on each child's individual reading skills. These activities encourage your child to gain a love for reading and become life long learners.

Physical & Motor Development

Children will develop coordination, strength and endurance through fun gross motor activities.

They will participate in structured and unstructured games which teaches good sportsmanship, team spirit, and motivation.
